

... Boer is the Dutch and Afrikaans word for farmer --- a wanderer, or traveller - being nomadic and free-spirited, looking for land to make a living off ---

The desire to wander, known as Trekkees, was a noble characteristic of the boers ---

Afro is a hairstyle worn naturally by people of this continent.

We aptly decorate ours with a protea, reminding us that as African travellers, we should have grace in our hearts, and flowers in our hair ---
